

# Halt!

**23,000 people missing this month....**

**Most are found, but what happened to the others?**

## **The Background.**

No countries children are immune from this statistic. Many are sold by their own parents, a few tricked into believing they go to a new life, some just abducted. But the reality is they are often destined to feed the appetite of prostitution, childless couples and sometimes perversion or death. Hundreds never to be seen or heard of again!

## **The Human Cost**

From a month old baby through to young adults of both sexes, these are the forgotten ones by their own governments. They serve to fuel a multi billion pound industry with the only punishment, to the ones who peddle such depravity, of a few years in prison, where the victim receives life.

Now she's on the run in a hostile country and her new owner wants her back, no matter what the cost!
